

# ABSTRACT

Anti-odor and anti-plaque compositions for oral use are provided comprising an anti-odor and anti-plaque active component of an extract of *Glycyrrhiza glabra* or *Usnea spp.*, an anti-odor or anti-plaque active component of such extracts, and mixtures thereof. The composition may further comprise a cationic and/or non-ionic surfactant, divalent metal cations, oligosaccharides, suitable solubilizing carriers and other additives.
